

Animation

When creating animation the subject changes while the background remains constant.

1. Create a simple image. FILE SAVE AS YOUR NAME. If the image has more than 1 layer. LAYER FLATTEN IMAGE.
2. Create 10 different variations on this image and save each one as YOUR NAME 1-10.
3. Choose which variation that you want to be the final stage of your picture.
4. Open that file. FILE SAVE AS YOUR NAME FINAL.
5. Open each variation of that image and copy and paste each variation to FINAL.
6. Each variation of the picture should have it's own layer within the FINAL.
7. DO NOT FLATTEN THE LAYERS.
8. SAVE the FINAL.
9. Jump to Image Ready.
10. WINDOW SHOW ANIMATION.
11. In the animation palette there is a side ways arrow. Click the arrow and choose MAKE FRAMES FROM LAYERS.
12. The layers will fill the animation palette.
13. Click the play button at the bottom of the animation palette.
