

# STRING

**Due Date:** Turn in your contact sheet and 8x10 on Monday, **October 7**.

**The Goal:** Include STRING as the subject or directly related to the subject in a photograph. You should have ONE portfolio quality 8x10 to turn in on the due date. Include your contact sheet when turning in your print.

**To help you plan and create:**

What is your year long project? How might you include string into one of the photos with that theme?

Name four different kinds of string.

Remember the personal voice you have as a photographer. Try to have the image say something about you. Go to [photoeye.com](http://photoeye.com) for inspiration.

What would be a good background for your subject?

What kind of film should you use?

What lens should you use?

What kind of depth of field would be most relevant/powerful? (Shallow, deep, medium?)

How do you want to print this? Some ideas: Full-frame, scratched, straight, toned, Collaged, vertical, horizontal
