

Assignment: Web Design

You will design your own web page

You must have the following:

2 buttons

3 photographs

You can add animation if you would like, but design your page first.

To add animation:

Use the page as the background

Create your object you are going to animate in a new layer on top of the background

Save as your web page 1

Continue this process until you have animated your object

Open each variation of the object,

LAYER>FLATTEN IMAGE

SELECT> ALL

EDIT >COPY

EDIT>PASTE on to the last image

Jump to image ready and MAKE FRAMES FROM LAYERS

Horizontal page 640X480 pixels with a resolution of 72.

Vertical page 480X640 pixels with a resolution of 72.

Once you have designed your page in Photoshop, jump to Image Ready and
FILE>PREVIEW IN one of the web browsers (Internet Explorer or Netscape
Communicator, Explorer works a little easier)

Evaluate the page and see if any size adjustments need to be made so that the whole page
fits on the screen.
