

# College Info

**Due Date:** Friday, August 23

**Objective:** To go on the internet and access the web-sites of your three top choices for Colleges and order their admissions packets, catalogs and scholarship info.

**What to do:**

1. Find at LEAST three colleges of your choice on the internet and order these three things from them:
  - A. Admissions packet
  - B. Catalog (if free)
  - C. Scholarship info from your department
2. Find the department that your major would fall under and get the address for the department and the name of the head of the department. It is often under contact info.
  - Later you will be writing a letter to that person requesting scholarship and job/internship info that is special to that department.
3. Check out the catalog online and look at some classes in your department. List three from each school that sound of interest to you.

**What to turn in:** Turn in the address of the department and the list of classes for each school.
