

TELEVISION NEWS PROGRAM

For this assignment, the class will be working as a group to produce a television news program. Each member of the class is expected to contribute to the overall product, which must meet the following requirements:

- the program should be 15-20 minutes long
- the program should contain at least 2 minutes of commercials
(these can be grouped in any way)
- all of the class should be seen during the program
(this means everyone has a part in front of the camera)
- groups will be set up so that you will either be working on a story for the broadcast or on a commercial

The objectives for this unit are as follows:

The student shall be able to explain the different jobs which are a part of a newsroom, i.e. producer, director, news manager, anchors, reporters, photographers, tape editors, production crew, etc.

The student will demonstrate basic verbal and visual communication skills through the writing, taping and production of the news program.

The student will become familiar with some of the equipment used to produce a television news program.

The class will receive an overall grade for the project. Each member of the class will also receive an individual grade based on his or her contribution to the production. Peer evaluations will be a part of the individual grade.

The schedule will be as follows:
