Communication Graphics

The school will provide all of the required equipment necessary for the student to complete the course work. We will also try to provide as much of the supplies as possible, but it will be the student's responsibility to provide the majority of the photographic film and paper used in the class. A list of the necessary photographic supplies for the school year is as follows:

*8-10 rolls 35mm black and white film, ASA 400	\$2.50 ea.- (24 ex.)
*1 roll 120mm black and white film	\$3.50 ea.(approx)

*6-8 11x14 mounting boards (black, white or gray)	.75 ea.
Spotting brush	\$3.50/2
Spotone (basic set of 3- #0,1,3)	\$4.50

I would also recommend, but will not require, that you purchase some type of negative cleaning brush (camel's hair) to help remove dust when printing. Some of these brushes are anti-static, which is even more helpful.

Some of these supplies could be bought in larger quantities at lower prices by several students going together. **YOU WILL NOT NEED TO PURCHASE ALL OF THESE SUPPLIES AT ONE TIME! YOU MAY PURCHASE THEM AS YOU NEED THEM.** All of the items with an asterisk (*) can be purchased from the school. If the cost of supplies is going to create a problem, PLEASE see me in private as soon as possible.
