

## Photography Notebook

**Purpose:** To recognize the elements and quality of photography.

**Overview:** Compile a notebook of photo examples that identifies various aspects in photography, their uses, and their qualities.

**Assignment:**

Find three (3) samples of each of the following types of photos and glue to a piece of paper.

For each photo, tell where the photo was found, how it was used, and why you feel it is effective or not effective.

Make a cover for your notebook and decorate it.

Portraits - photos of people in posed positions.

Action shots - photos of people in movement.

Reaction shots - photos of people showing emotions (unposed)

Still Life - photos of objects, scenery, etc.

Photography used in Advertising - ads with outstanding, or unusual photography of either people or objects.
